

Memorandum

TO: Steve Drown, Chief, Water Divison

THROUGH: Annette Cusher, Engineer Supervisor, Technical Branch, HWD
Tammie Hynum, Branch Manager, Technical Branch, HWD

FROM: Clay McDaniel, Engineer, Technical Branch (HWD)

DATE: January 15, 2009

SUBJECT: Cedar Chemical Corporation
Remedial Action Decision Document

Please find the enclosed DRAFT Remedial Action Decision Document (RADD) regarding the Cedar Chemical Corporation. We felt the need to inform you since one of the remedies outlined in the RADD is the removal of the stormwater treatment ponds, in which stormwater run-off from the process area is treated prior to discharge to Outfall 002 going to the Mississippi River. Cedar Chemical previously operated under former NPDES Permit No. AR0036412. Please review and let me know if you have any questions or comments.

Clay McDaniel
